Morse, Jedidiah, 1761-1826.

Elements of geography: containing a concise and comprehensive view of that useful science, as divided into, 1. Astronomical. 2. Physical, or natural. 3. Political geography. On a new plan. Adapted to the capacities of children and youth; and designed, from its cheapness, for a reading and classical book in common schools, and as a useful winter evening's entertainment for young people in private families. Illustrated with a neat map of the United States, and a beautiful chart of the whole world / by Jedidiah Morse ... Third edition, improved. (See next card) MB-Rev.
